Facial Services \$125

Acne Facial - A specialized skincare treatment designed to target and alleviate acne symptoms, prevent future breakouts, and improve the overall health and appearance of acne-prone skin.

Glow Facial - A specialized skincare treatment aimed at revitalizing the skin to achieve a luminous, radiant complexion. It involves a series of steps designed to deeply cleanse, exfoliate, hydrate, and nourish the skin, enhancing its natural glow.

ZO® Facial - The customized ZO® facial is a deep cleansing to remove makeup, dirt, and impurities from the skin. An exfoliation is performed to remove dead skin cells and promote cell turnover. Steam is applied to open up the pores, making it easier to perform extractions. A customized mask and products are applied to address specific skin concerns such as hydration, calming, detoxifying, or anti-aging.

Dermaplane Treatment \$95

Dermaplaning is a manual exfoliation technique that aims to smooth the skin's surface, resulting in a brighter and more youthful appearance. Dermaplane also removes the vellus hair (peach fuzz) and the first layer of dead skin cells.

DYE-VL + IPL

The Harmony DYE VL by Alma Lasers combines two trusted technologies, Pulsed Dye Laser and Intense Pulse Light. This laser treatment uses high-intensity pulses of broad-spectrum light to penetrate the skin layers. This light targets pigmented cells and blood vessels, helping to break them down and stimulate the body's natural healing processes, which in turn improves skin tone and texture.
